Female ABBI # _____

Female's history (List any info that you would like us to consider):

Has female been flushed? Yes _____ No _____
If yes, list how many times & results of last three (3) flushed including dates:

When is the last time female had a calf? _____

Females sire _____

Sires ABBI # _____

Sires history (important that you provide factual data):

Females dam _____

Dams ABBI # _____

Dams history (important that you provide factual data):

Other important facts you would like us to consider:

I, _____, would like Exclusive Genetics (EG) to consider the above referenced female as a dam for the Million Dollar Futurity. I understand that I will be responsible for trucking of the female to and from EG flush facility. In return, I will receive two hundred fifty dollars (\$250.00) for every good (not unfertilized or degenerate) embryo created (paid quarterly). I also understand that EG may flush my female up to three times, but based on results may choose to flush her less than three times. I will not be charged any cow care during the time my female is at EG, however, once EG notifies me they are done flushing my cow, I will have thirty (30) days to pick her up (after thirty days I will be charged one-hundred fifty dollars per month). Finally, I understand that EG will not be responsible for any sickness, disease, and/or death that may happen while female is at EG facility.
